

SARAH JOHNSON
Senior Software Engineer
sarah.johnson@email.com | +1-415-555-0123 | linkedin.com/in/sarahjohnson | github.com/sarahj | San Francisco, CA

PROFESSIONAL SUMMARY
Senior Software Engineer with 8+ years of experience building scalable distributed systems and leading engineering teams

EXPERIENCE
TechCorp Inc. | Staff Software Engineer | San Francisco, CA
Jan 2022 - Present

- Architected and led migration of monolithic platform to microservices on Kubernetes, reducing deployment time by 70%
- Led a team of 8 engineers across backend, platform, and SRE disciplines
- Designed event-driven architecture processing 50M+ events/day with Apache Kafka
- Established engineering standards for code review, testing, and observability

DataFlow Systems | Senior Software Engineer | Remote
Mar 2019 - Dec 2021

- Built real-time data pipeline processing 10TB/day using Apache Flink and Kafka
- Optimized query performance reducing latency from 5s to 50ms for analytics dashboard
- Mentored 5 junior engineers and conducted 50+ technical interviews
- Contributed to open-source Flink connectors adopted by 200+ companies

StartupXYZ | Software Engineer | New York, NY
Jun 2016 - Feb 2019

- Developed full-stack web application serving 100K+ daily active users
- Implemented CI/CD pipelines reducing release cycle from weeks to hours
- Built automated testing framework achieving 90% code coverage

EDUCATION
Stanford University
M.S. Computer Science | 2016
GPA: 3.9/4.0

University of California, Berkeley
B.S. Computer Science | 2014
GPA: 3.7/4.0

SKILLS
Programming: Python, Go, Java, TypeScript, SQL, Rust
Cloud: AWS, GCP, Kubernetes, Docker, Terraform, Helm
Data: Apache Kafka, Apache Flink, Apache Spark, PostgreSQL, Redis, Elasticsearch
Tools: Git, GitHub Actions, Jenkins, Prometheus, Grafana, Datadog
Methodologies: Agile, TDD, Code Review, System Design

PROJECTS
Distributed Task Queue
High-performance task queue supporting 1M+ jobs/day with exactly-once semantics

- Built with Go, Redis, and PostgreSQL
- Deployed on Kubernetes with Helm charts

Real-time Analytics Platform
Stream processing platform for business metrics with sub-second latency

- Apache Flink, Kafka, and ClickHouse
- Processed 50M events/day across 10 data sources

CERTIFICATIONS
AWS Certified Solutions Architect - Professional | 2023
Google Cloud Professional Cloud Architect | 2022
Certified Kubernetes Administrator (CKA) | 2021

LANGUAGES
English - Native
Spanish - Professional Working Proficiency
